

The Kennels of **STONE CREEK**

Boarding Checklist - Kennels of Stone Creek

Just as you prepare for travel and hotel stays, your dog's needs must be addressed as well. Here is a quick checklist to help you remember everything you need to make your dog's experience safe and enjoyable.

VACCINATIONS

New or expired vaccinations must be given 10 days prior to boarding.

Your dog will need to be current on the following shots:

- DHPP - Distemper, Hepatitis, Para influenza, Parvovirus
- Rabies
- Bordetella (Kennel Cough)

DOG FOOD

Stone Creek feeds a premium chicken base food with 30% protein, 16% fat.

You may bring your own food, we ask because of our limited storage space that you bring only enough for the duration of their stay at Stone Creek, clearly marked with your dog's name. Zip lock bags with food pre-measured for each meal is best. (We will return the bags so you can reuse them for your next visit.)

MEDICATIONS and instructions for their use

BED or rug to sleep on

TOY or bones (limit of 2)
